Profile

Football insights leader who has run a club analysis department and now leads club analytics and insights at AC Sparta Praha. Brings performance analysis, data science and recruitment data together into one service for the coaching staff and the Sporting Director. Former professional player and Slovakia youth international, UCFB-educated in the UK.

2×
Back-to-back 2nd places at DAC — best in club history, record points

2
Club-record outgoing transfers identified and supported (Krstović, Bajo)

6
Analysts led as Head of Analysis at DAC 1904

35%
Of the data and software budget saved at Sparta by replacing external platforms with our own in-house tools

Experience

Head of Club Analytics & Insights · AC Sparta Praha — Aug 2024 – Present · Prague

- Lead the football data and analytics function, coordinating a data engineer and analytical support.
- Work with the first-team coaching staff every day on tactical, opposition, video and data analysis.
- Support the Sporting Director on strategy, squad planning, job descriptions and staff identification.
- Translate the football strategy into position profiles, ratings, team KPIs, expected-points and Elo models.
- Built SkillCorner physical and game-intelligence position ratings to add tracking context to event data.
- Replaced external data platforms with club-built tools, saving around 35% of the data and software budget.
- Support outgoing-transfer strategy and early club-to-club conversations about player sales.

Head of Analysis · DAC 1904 Dunajská Streda — Nov 2023 – Aug 2024 · Dunajská Streda

- Part of back-to-back 2nd-place finishes — the best results in club history, with record points.
- Identified and supported the sale of Krstović and Bajo for club-record fees.
- Built the scouting-analysis structure and game model with head coach Xisco Muñoz.
- Set video-analysis structures, standards and reporting across the club.
- Produced data-based reports on team and league-wide trends.

Coach Analyst · DAC 1904 Dunajská Streda — Jan 2023 – Nov 2023 · Dunajská Streda

- Opposition analysis and pressing-pattern identification.
- Scouting dashboards and KPIs for staff.
- Live tagging and in-game feedback.
- Training-session preparation and individual player work with the first-team staff.

Opposition Analyst · DAC 1904 Dunajská Streda — 2022 · Dunajská Streda

- Opposition reports combining event data and video.
- Match-preparation plans and tactical counter-strategies.

Junior Football Editor · Canal+ — 2022 · Prague

Match analysis and highlight production for broadcast using Piero and RT Sports.

Professional Footballer — 2017 – 2022

AC Sparta Praha · Liptovský Mikuláš · FK Liepāja · Makedonikos. Came through the AC Sparta Praha academy; Slovakia youth international; professional football in four countries.

Selected work

Club insights platform
One environment for scouting reports, player data, team performance, ratings, alerts and longitudinal player profiles.

Event & tracking player models
Position ratings combining StatsBomb event value (OBV, pass difficulty) with SkillCorner physical and game-intelligence tracking metrics.

Scout AI Planner
AI-assisted planning that assigns scouts to matches by priority, location and expertise, with a live reporting view.

Game-to-game & team models
Game-to-game player ratings, expected points, Elo ratings and monthly reports tied to the club's KPIs.
