Profile

Football insights leader who has run a club analysis department and now leads club analytics and insights at AC Sparta Praha. Connects performance analysis, recruitment, data science and traditional scouting into one football insights function — built to help coaches and sporting directors make better decisions. Former professional player and Slovakia U21 international, UCFB-educated in the UK.

2×
Part of the DAC staff that delivered back-to-back 2nd-place finishes — the best league results in club history

2
Club-record outgoing transfers identified and supported (Krstović, Bajo)

3rd
Season learning daily from Sporting Director Tomáš Rosický — Sparta and Arsenal legend

35%
Of the data and software budget saved at Sparta by replacing external platforms with our own in-house tools

Experience

Head of Club Analytics & Insights · AC Sparta Praha — Jan 2026 – Present · Prague

- Lead the football data and analytics function, coordinating a data engineer and analytical support.
- Work with the first-team coaching staff every week on tactical, opposition, video and data analysis.
- Support the Sporting Director on strategy, squad planning, job descriptions and staff identification.
- Learn daily from Sporting Director Tomáš Rosický, who rebuilt the squad, won back-to-back Czech titles (2022/23, 2023/24), reached the Champions League league phase for the first time in 19 years (2024/25) and sold players for €10M+ (Hložek, Vitík).
- Hold regular meetings with the Head of Scouting and lead scouts and keep daily contact with the scouting network to align priorities, targets and report feedback.
- Translate the football strategy into position profiles, ratings, team KPIs, expected-points and Elo models.
- Built SkillCorner physical and game-intelligence position ratings to add tracking context to event data.
- Replaced external data platforms with club-built tools, saving around 35% of the data and software budget.
- Support outgoing-transfer strategy and early club-to-club conversations about player sales.

Lead Recruitment Analyst · AC Sparta Praha — Aug 2024 – Jan 2026 · Prague

- Led sourcing and analysis of internal and external datasets to produce actionable player insights for recruitment decisions.
- Produced data profiles and visualisations of target players aligned with the club's recruitment strategy.
- Worked with local, national and international area coordinators and scouts on player tracking, fixture scheduling, coverage and report analysis.
- Improved the scouting report form, built position-specific profiles and managed internal squad lists across age groups and positions.
- Developed an AI solution to optimise scouting routes, making talent identification faster and more efficient.
- Created advanced metrics and valuation models to deepen analysis and improve club decision-making.

Head of Analysis · DAC 1904 Dunajská Streda — Nov 2023 – Aug 2024 · Dunajská Streda

- Part of back-to-back 2nd-place finishes — the best results in club history, with record points.
- Identified and supported the sale of Krstović and Bajo for club-record fees.
- Built the scouting-analysis structure and game model with head coach Xisco Muñoz.
- Set video-analysis structures, standards and reporting across the club.
- Produced data-based reports on team and league-wide trends.

Coach Analyst · DAC 1904 Dunajská Streda — Jan 2023 – Nov 2023 · Dunajská Streda

- Opposition analysis and pressing-pattern identification.
- Scouting dashboards and KPIs for staff.

- Live tagging and in-game feedback.
- Training-session preparation and individual player work with the first-team staff.

Opposition Analyst · DAC 1904 Dunajská Streda — 2022 · Dunajská Streda

- Opposition reports combining event data and video.
- Match-preparation plans and tactical counter-strategies.

Junior Football Editor · Canal+ — 2022 · Prague

Match analysis and highlight production for broadcast using Piero and RT Sports.

Professional Footballer — 2017 – 2022

AC Sparta Praha · Liptovský Mikuláš · FK Liepāja · Makedonikos. Five years in professional football across Czechia, Slovakia, Latvia and Greece — experience that still shapes how I translate data into football language.

Selected work

Club insights platform

Sparta Data Platform: the club's own internal analytics app for opposition reports, gameweek reviews, player profiles, ratings and alerts — replacing external platforms.

Scout AI Planner

AI-assisted planning that assigns scouts to matches by priority, location and expertise. It improved scouting routes and cut the workload of the technical scouting department.

Event & tracking player models

Decision models on event and tracking data — e.g. which pass option the model rated highest versus the one played — plus SkillCorner physical and game-intelligence position ratings.

Game-to-game & team models

Game-to-game player ratings, expected points, Elo ratings and monthly reports tied to the club's KPIs.

Education, toolkit, languages

MSc Coaching and Analysis (Performance Analysis)

University of East London / UCFB · 2023 – 2024

Thesis: goal-kick strategy in the Slovak Niké liga. Earlier research: data-driven player recruitment.

BSc Sports Science

VŠTVS Palestra · 2019 – 2022

UEFA C coaching licence.

Languages: Slovak (native) · Czech (fluent) · English (advanced professional)

Data & tracking: StatsBomb, SkillCorner, Impect, Opta, Wyscout, Metrica

Video: Hudl Sportscode, Wyscout, Piero

Engineering & BI: Python, SQL, PostgreSQL / Supabase, AWS, APIs, Streamlit, Tableau, Power BI

Football: Opposition analysis, Game model, Live scouting, Player valuation, Squad planning, KPI design
